

## Features

- For Cold Junction Compensation of HiD2081, HiD2082
- For H-System Termination Boards
- For terminal blocks with screw terminals
- Packaging unit: 8 pieces

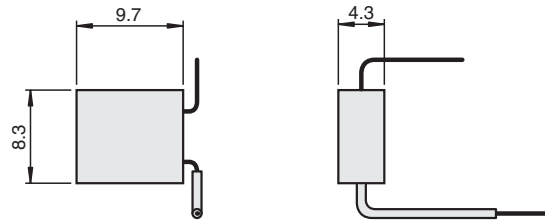

## Function

The resistance thermometer is suitable for H-System applications.

The wires of the resistance thermometer are bended for usage of terminal blocks with screw terminals on the field side of the Termination Board.

The resistance thermometer is available as an optional accessory.

## Dimensions

## Technical data

### General specifications

Type resistance thermometer (RTD) Cu109

### Electrical specifications

Resistor 109  $\Omega$

### Mechanical specifications

Mass approx. 3 g

Dimensions 8.3 x 9.7 x 4.3 mm (0.33 x 0.38 x 0.17 in)
